

## Experience

### Far Eastern University Institute of Technology Information System Development and Training Unit

Sampaloc, Manila

#### Full Stack Junior Software Developer Intern

April – November 2025

- Designed and developed a hospital-internal Picture Archiving and Communication System (PACS) for ophthalmic imaging
- Implemented secure image upload, storage, and retrieval within a hospital local network
- Applied role-based access control to restrict system functionality for clinicians and administrative staff
- Leveraged AI-assisted development tools to improve coding efficiency, debugging, and system refinement
- Collaborated with hospital personnel to align system features with clinical workflow requirements
- Delivered an end-to-end system independently, covering requirements analysis, development, testing, and deployment

## Skills

- Multilingual**
  - Mandarin
  - Hokkien
  - Filipino
  - English
- Tech Stacks**
  - HTML
  - CSS
  - JavaScript
  - TypeScript
  - PHP
  - Java
  - C#, C++
  - Python
  - VueJS
  - Laravel
  - ReactJS
  - MySQL
  - Tailwind CSS
  - Bootstrap
  - Kotlin
  - Swift
  - Flutter
  - Linux OS
  - Windows Server 2012 R2
  - Cisco switches and routers
  - AI Integration

## Certifications

|                                                                                         |                    |
|-----------------------------------------------------------------------------------------|--------------------|
| <b>Project Management Institute</b>   PMI Project Management Ready                      | March 27, 2025     |
| <b>Certiport</b>   IT Specialist - Cybersecurity                                        | March 26, 2025     |
| <b>Cisco Networking Academy</b>   NDG Linux Essentials                                  | May 17, 2024       |
| <b>Cisco Networking Academy</b>   DevNet Associate                                      | April 27, 2024     |
| <b>Cisco Networking Academy</b>   CCNA: Enterprise Networking, Security, and Automation | December 05, 2023  |

## Projects

### Laboratory Information Management System

March 2026

- Tech stack: Laravel, Blade, Alpine JS, Tailwind CSS, MySQL
- Utilized AI-assisted tools such as GitHub Copilot and Claude AI to streamline development, assist in debugging, and improve code quality through iterative refinement
- Designed and developed a full-stack laboratory management system to handle lab requests, sample tracking, test processing, and result validation workflows
- Built role-based modules for technicians, supervisors, and administrators to manage laboratory operations efficiently
- Designed a modern and responsive UI using Laravel and frontend technologies for improved usability in clinical environments

**DOH East Avenue Medical Center Picture and Archiving and Communication System**

April 2025

- Designed and developed a medical imaging and media management system for storing, retrieving, and viewing diagnostic images
- Built secure workflows for uploading, archiving, and accessing patient imaging records
- Developed an intuitive dashboard for managing imaging requests, results, and patient records

**Small Grocery Store Point of Sale System**

August 2025

- Tech stack: Laravel, Livewire, MySQL, PHP, Tailwind CSS
- Built an order and delivery management system with real time tracking
- Generate sales report to support business decision making and performance monitoring
- Improved operational efficiency by centralizing sales, inventory, and delivery workflows into a single system

**Bleep**

December 2025

- Tech stack: Laravel, VueJS, MySQL, PHP, Reverb, Tailwind CSS
- A modern microblogging platform inspired by X (formerly Twitter) using Laravel and Vue JS
- Extended the base Laravel Chirper into a fully functional application with custom features
- Implemented real-time messaging using Laravel Reverb WebSocket for live chat functionality

Education

**Far Eastern University Institute of Technology**

Sampaloc, Manila

Bachelor of Science in Information Technology Specializing in Web and Mobile Application

December 2025

Capstone Project: VIAMM: An Assistive Technology Management System for Visually Impaired with Mobile Money Recognition

- People's Choice Award
- Best Mobile Application

**Philippine Cultural College Main Campus**

Tondo, Manila

Elementary, High School

March 2021
